Control arm to fit Audi A4, A5, Q5

as OE

Problem

High dynamic stress in the upper control arms

Effect

Play in the ball joints and noise at the front axle

Solution

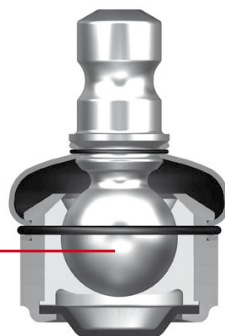

- Enlarged ball diameter in ball joints (as OE: 22 mm, MEYLE HD: 25 mm)
- Control arm bushings improved by specific volume enlargement

Advantage

High-quality components with longer service life

as OE

22mm

MEYLE-HD- version

25mm
