

# VKBA 3532

Technical Bulletin #3 - 2009

CHASSIS

Rear Wheel : FORD Fiesta, Focus, Fusion

Loose ABS ring included in the kit – handle with care!

In VKBA 3532 a loose magnetic ABS ring is included. This is not shown in the kit content in the Wheel bearing Catalogue. This ABS ring has to be handled with care and not exposed to other magnetic objects. This will destroy the magnetic fields and the ABS on the vehicle will not function in a proper way.
